<i>The Immutability of God in the Theology of Hans Urs Von Balthasar</i> Gerard F. O'Hanlon,2007-11-19 This study shows how the trinitarian theology of Hans Urs von Balthasar opens up an aproach to the controverted question of God s immutability and impassibility which succeeds in respecting both the transcendence and the immanence of God Contrary to both Process thought and the classical Thomist position von Balthasar s scattered treatment is here presented thematically in a way which makes it clear that his idea of an analogous event in the trinitarian God in which we participate is a radical reinterpretation of the traditional Christian axiom of divine immutability In the course of outlining the distinctiveness of von Balthasar s approach O Hanlon introduces the reader to some of the fundamental themes of one of the major Roman Catholic theologians of this century who is still relatively unknown in the English speaking world

Volume 10, Tome III: Kierkegaard's Influence on Theology Jon Stewart, 2016-12-05 Kierkegaard has always enjoyed a rich reception in the fields of theology and religious studies This reception might seem obvious given that he is one of the most important Christian writers of the nineteenth century but Kierkegaard was by no means a straightforward theologian in any traditional sense He had no enduring interest in some of the main fields of theology such as church history or biblical studies and he was strikingly silent on many key Christian dogmas Moreover he harbored a degree of animosity towards the university theologians and churchmen of his own day Despite this he has been a source of inspiration for numerous religious writers from different denominations and traditions Tome III explores the reception of Kierkegaard's thought in the Catholic and Jewish theological traditions In the 1920s Kierkegaard's intellectual and spiritual legacy became widely discussed in the Catholic Hochland Circle whose members included Theodor Haecker Romano Guardini Alois Dempf and Peter Wust Another key figure of the mid war years was the prolific Jesuit author Erich Przywara During and especially after World War II Kierkegaard's ideas found an echo in the works of several trend setting Catholic theologians of the day such as Hans Urs von Balthasar Henri de Lubac and the popular spiritual author Thomas Merton The second part of Tome III focuses on the reception of Kierkegaard's thought in the Jewish theological tradition introducing the reader to authors who significantly shaped Jewish religious thought both in the United States and in Israel These theologians represent a variety of religious and political backgrounds the spiritual world of Hasidism Modern Orthodox Judaism of Mithnaggedic origin and Modern Religious Zionism

One of the Trinity Has Suffered: Balthasar's Theology of Divine Suffering in Dialogue Joshua R. Brotherton, 2020-01-01 Hans Urs von Balthasar's discourse on the descent of Christ into hell and its implications for the Triune God have been disputed for half a century One of the Trinity Has Suffered evaluates and revises von Balthasar's theology of divine suffering in a way that interacts with and significantly enriches contemporary Catholic theology In this book Joshua R Brotherton engages twentieth century Thomistic theology as well as the thought of Pope Emeritus Benedict XVI Joseph Ratzinger and Pope St John Paul II Drawing from the vast secondary literature on von Balthasar Brotherton offers a balanced assessment of his work on the topic of divine suffering both critical and appreciative Recognizing von Balthasar's laudable attempt to integrate mystical spirituality and systematic theology Brotherton seeks to distinguish valid insights from confused mixtures of metaphorical meta symbolic and philosophical metaphysical discourse on God particularly with respect to the classical problem of how the Creator who willed to become incarnate may be said to suffer Truly One of the Trinity has suffered and yet this mystery of faith must be carefully explained and understood in conformity with sustained Catholic reflection on divine immutability and simplicity the dual nature and unique personhood of Christ the Trinity of divine subsistent relations the freedom of God in creating and becoming man the analogy of being the problem of evil and the immensity and infinite value of Christ's redemptive suffering

The New Visibility of Religion Graham Ward, Michael Hoelzl, 2008-10-09 Since the late 1980s sociologists have been drawing our attention to an international surge in the public visibility of religion. This has increasingly challenged two central aspects of modern western European culture: first, the assumption that as we became more modern we would become more secularised and religion would disappear; and secondly, that religion and politics should occupy radically differentiated spheres in which private conviction did not exert itself within the public realm. The new visibility of religion is not simply a matter of what Keppel famously called 'The Revenge of God' – that is, the resurgence of Christian, Islamic and Jewish fundamentalism. Religion is permeating western culture in many different forms, from contemporary continental philosophy, the arts and the media to the rhetoric of international politicians. This collection of essays brings together a unique collection of voices from theology, aesthetics, social and political science, philosophy and cultural theory in an exploration of four major aspects of this new visibility of religion: the revision of the secularisation thesis, the relationship between religion and violence, the new re-enchantment of reality and the return of metaphysics. The exploration is conducted through essays by and interviews with figures at the forefront of reflecting upon this major cultural shift and its implications. It is distinctively multidisciplinary, examining the phenomenon of the rise of religion in Western Europe from a number of interrelated perspectives.

The Oxford Handbook of Christology Francesca Aran Murphy, 2015-09-24 The Oxford Handbook of Christology brings together 40 authoritative essays considering the theological study of the nature and role of Jesus Christ. This collection offers dynamic perspectives within the study of Christology and provides rigorous discussion of inter-confessional theology which would not have been possible even 60 years ago. The first of the seven parts considers Jesus Christ in the Bible. Rather than focusing solely on the New Testament, this section begins with discussion of the modes of God's self-communication to us and suggests that Christ's most original incarnation is in the language of the Hebrew Bible. The second section considers Patristic Christology. These essays explore the formation of the doctrines of the person of Christ and the atonement between the First Council of Nicaea in 325 and the eve of the Second Council of Nicaea. The next section looks at Mediaeval theology and tackles the development of the understanding of who Christ was and of his atoning work. The section on Reformation and Christology traces the path of the Reformation from Luther to Bultmann. The fifth section tackles the new developments in thinking about Christ which have emerged in the modern and the postmodern eras, and the sixth section explains how beliefs about Jesus have affected music, poetry and the arts. The final part concludes by locating Christology within systematic theology, asking how it relates to Christian belief as a whole. This comprehensive volume provides an invaluable resource and reference for scholars, students and general readers interested in the study of Christology.

Faithful Reading Simon Oliver, Karen Kilby, Thomas O'Loughlin, 2012-03-29 Fergus Kerr OP is one of the foremost Catholic theologians of his generation. His works are widely read by specialists and students in the UK, North America and across the world. His *Theology after Wittgenstein* is regarded as a seminal work in philosophical theology. His *After Aquinas: Versions of Thomism* and *Twentieth Century Catholic Theologians* are two of the finest student-focused introductions to their topics currently available. The essays in this collection cover the two key areas of Kerr's contribution: the relationship between theology and philosophy, focusing particularly on Thomism and twentieth-century Catholic thought. These themes provide the volume's coherence. A key strength of this volume lies in the stature of its contributors. These include the Canadian Catholic philosopher and Templeton laureate Charles Taylor, Stanley Hauerwas, John Milbank, David Burrell and Denys Turner. A number of younger contributors representing the influence of Kerr over several generations are also represented.

The Analogy of Beauty John Riches, John K. Riches, 1986-03-10 Examines the whole range of von Balthasar's theology and provides a clear introduction to his work

Philosophia perennis Wilhelm Schmidt-Biggemann, 2007-11-08 The study features the five most important and most efficacious themes of Western spirituality in their ancient historical origins and in their unfolding up to early modernity Divine names Microkosmos Makrokosmos theories of creation the idea of spiritual spaces and the concepts of eschatological history

The Art of God Incarnate Aidan Nichols, 2016-04-22 The Art of God Incarnate proposes that visual art is a good way to think of how the incarnation the central truth claim of Christianity can be said to reveal the divine In the book of Genesis the human being fresh from the hands of the Creator is the image of God in the temple of the world In an environment of distorted images the prophets sought to make visible by symbolic gestures the divine attitude toward Israel as well as looking forward to a new divine intervention to redeem history and transfigure human lives For the New Testament faith this transforming intervention has come about through the restoration of the divine image in man Jesus Christ is the true and living icon of the Father and the model from whose radiance human beings generally can be re-fashioned Despite the anti-iconic legislation of the Hebrew Bible it was inevitable therefore that under the New Covenant a visual art would make its appearance since God had now made himself visible in his humanized Son During the iconoclast crisis which shook the Eastern Roman Empire it was the achievement of the later Greek fathers to spell out this claim doctrinally Modern aesthetics can throw further light especially by way of phenomenology and semiotics on how an artwork can be a communicator of meaning and truth Finally there is the question of how human beings are to make their own this revelation of God in the visual realm In the Latin tradition especially among the monastic teachers of the twelfth century the biblical theme of man made in the divine image and likeness was used to speak of how people can be changed by the fresh resources that revelation provides Through growth in charity they themselves can become saints images of God
