

Amazing Nature
Animal senses

Humans have five senses: sight, hearing, taste, smell, and touch. We use these senses every day of our lives when we work, play, eat, drink. Animals have sense too, and sometimes they are much more powerful than ours. We have our food prepared for us.

But animals need to find their own food using their senses. For example, predators often have very good sight. Some birds of prey can see a mouse at a distance of 1.5 kilometers. However, they don't always catch the mouse. Mice have amazingly good hearing and this helps them escape from predators!

Insects sometimes have senses that are different from ours. For example, butterflies don't taste with their mouths - they taste

with their feet. Crickets don't hear with their ears - they hear with their legs. Chameleons have two eyes, the same as we do, but they can move their eyes separately and look in two different directions at the same time! Some animals seem to have special sense that tells them about the future. Birds,

ants and many other animals look for food more busily just before bad weather. This helps them survive because it's more difficult to find food when the weather is bad. They know that bad weather is coming. Birds also use this ability to avoid bad weather when they fly long distances.

For centuries, people have noticed that animals often behave strangely before an earthquake. For example, in January 1975, a lot of farmers in one part of China told scientists that their horses and cattle did not want to go inside the barns. A few days later, there was a large earthquake in that region. Do animals have a special sense that predicts earthquakes? The answer is probably yes, but scientists do not yet understand how it works.

Answer the following questions

1. How many senses do humans have?

2. What do animals use to find their food?

3. Which sense do birds of prey use to catch their food?

4. Which sense helps mice to escape from predators?

5. What do butterflies use to taste?

6. What do crickets use to hear?

7. What is special about chameleons?

8. Which animals look for food more busily before bad weather?

9. When do they behave strangely?

10. What did farmers tell scientists in China?

Reading Comprehension For Year 5

Ann Richmond Fisher

Reading Comprehension For Year 5

Brilliant Activities for Reading Comprehension Year 5 Charlotte Makhoul,2015-12-07 The importance of being able to read for meaning should never be underestimated The ability to decode text is not enough It is vital that children understand what they are reading More importantly it is fundamental that they enjoy what they are reading so that they grow up to become lifelong readers The passages in the Brilliant Activities for Reading Comprehension series are designed to do just that They provide children with a variety of engaging enjoyable texts that will grab their attention and indeed their teacher s attention as well The types of comprehension passages range from newspaper articles and dialogues to plays stories and poems They gradually increase in difficulty as you progress though the book and through the series encouraging children to develop their ability to read for meaning and use a range of strategies to engage with the text Tasks range from simple factual recall and vocabulary work to more open ended questions enabling the reader to provide a more personal response The cross curricular activities provide a wealth of ideas for extending the passages further and are ideal for fast finishers

Jacob's Ladder Reading Comprehension Program Joyce VanTassel-Baska, Tamra Stambaugh, 2021-09-03 The Jacob's Ladder Reading Comprehension Program Nonfiction targets reading comprehension skills in high ability learners by moving students through an inquiry process from basic understanding to critical analyses of texts using a field tested method developed by the Center for Gifted Education at William Mary. Students in grade 5 will be able to comprehend and analyze any nonfiction reading passage after completing the activities in this book. Using skill ladders connected to individual readings related to essays, articles, comparison documents, infographics, and other nonfiction texts, students move from lower order concrete thinking skills to higher order critical thinking skills. All of the books geared to increasing grade levels include high interest readings, ladders to increase reading skill development, and easy to implement instructions. The ladders include multiple skills necessary for academic success covering language arts standards such as sequencing, cause and effect, classification, making generalizations, inference, understanding emotion, using and thinking about words, and recognizing themes and concepts. Optional Student Workbook Packs. In addition to this teacher's guide, companion student workbooks are available for Science and Math, Social Studies, and Fiction/Nonfiction Comparisons. The student workbooks feature ample room for student responses and notes, make reviewing and providing feedback on student work easier than ever, provide students with an easy to use reference to use during discussions, and save time as there is no need to reproduce student handouts. Grade 5.
