**The Ultimate Modern Guide to Artificial Intelligence** Enamul Haque, 2020-07-21 The era of artificial intelligence has arrived You who only felt far from artificial intelligence and the growing dream trees are now inseparable from artificial intelligence What does AI have to do with me Isn't it a distant future that has nothing to do with me not a scientist a technician or a computer programmer Well Artificial intelligence is not a story of someone who has nothing to do with it but the fact is it is now everyone's story AI is already deeply infiltrating everyone's life The question is no longer whether we use technology or not it's about working together in a better way Surrounding technologies like Siri Alexa or Cortana are seamlessly integrated into our interactions We walk into the room turn on the lights play songs change the room temperature keep track of shopping lists book a ride at the airport or remind ourselves to take the proper medication on time It is now necessary to look at artificial intelligence from a broader and larger perspective You should not just hang on to complex deep learning algorithms and think only through science and technology but through the eyes of emotions and humanities These days elementary school students learn English and coding at school Tomorrow's elementary school students will learn AI Of course not everyone needs to be an AI expert But if you don't understand AI you will be left out of the trend of changing times AI comes before English and coding This is because artificial intelligence is the language and tool of the future This book opens your door to the most critical understanding needed of AI and other relevant disruptive technologies Artificial intelligence will significantly change societal structures and the operations of companies The next generation of employees needs to be trained as a workforce before entering the job market and the existing workforce is regularly recharged and skilled There is plenty on this for reskilling too This is the most definitive compendium of AI The Internet of Things Machine Learning Deep Learning Data Science Big Data Cloud Computing Neural networks Robotics the future of work and the future of intelligent industries

*Full Upright and Locked Position: The Insider's Guide to Air Travel* Mark Gerchick, 2013-06-10 Sit back relax and enjoy the flight our pilots still intone But who are they kidding Former FAA chief counsel and senior aviation policy official Mark Gerchick unravels the unseen forces and little known facts that have reshaped our air travel experience since September 11 2001 With wry humor and unique insight Gerchick takes us past the jargon technicalities and all is well platitudes to expose the new normal of air travel from the packed planes and myriad hassles of everyday flying to the alchemy of air fares the airlines endless nickel and diming and the elusive hope of escape from steerage We find out what pilots do in the cockpit what's really worth worrying about when it comes to airline safety and why we get sick on planes Meanwhile Gerchick ponders the jarring disconnect between our quaint expectations of service with a smile and the grim reality of cramped seats no free lunch and watch yer knees With sympathy for both fliers and airlines Gerchick shows how the new business all business airline industry has finally learned to make money even in the face of crushing fuel costs and get millions of travelers where they're going every day safely and quickly From his singular vantage point as former aviation regulator and policymaker Gerchick gives us a straightforward insider's view of how hard it is for government to improve the traveler's lot by explaining the vagaries of consumer protection rules as well as the political realities and the economic forces at work While Gerchick offers reasons to hope for a better future in air travel he presents an unvarnished look at what we can expect good and bad when we take to the skies Some of it will reassure you some will make you cringe but all will open your eyes to what it means to fly today
