Separate chapters on the importance of harvesting, indices of various fruits and vegetables, methods of harvesting, importance of washing and various techniques and types of machines used for washing are covered in the earlier chapters with tables and pictures. Importance of packing fresh fruits and vegetables, its comparative merits and demerits, of each material, pre treatments of fruits and vegetables, different storage techniques and hazards during transportation are covered in the later chapters. This is a brief and valid handbook highly suitable for the students and research workers in the field of Horticulture, Agriculture and Food Science and Technology who are doing post harvest aspect of fruit and vegetables and also those who are engaged in fresh fruits and vegetable handling, packaging and marketing.

Fruit and Vegetables Anthony Keith Thompson, 2008-04-15 The second edition of this very well received book which in its first edition was entitled *Postharvest Technology of Fruits and Vegetables* has been welcomed by the community of postharvest physiologists and technologists who found the first edition of such great use. The book covers in comprehensive detail postharvest physiology as it applies to postharvest quality technology relating to maturity determination, harvesting, packaging, postharvest treatments, controlled atmosphere storage, ripening and transportation on a very wide international range of fruits and vegetables. The new edition of this definitive work which contains many full colour photographs provides key practical and commercially oriented information of great use in helping to ensure that fruit and vegetables reach the retailer in optimum condition with the minimum of loss and spoilage. *Fruits and Vegetables* 2nd edition is essential reading for fruit and vegetable technologists, food scientists and food technologists, agricultural scientists, commercial growers, shippers and warehousing operatives and personnel within packaging companies. Researchers and upper level students in food science, food technology, plant and agricultural sciences will find a great deal of use within this landmark book. All libraries in research establishments and universities where these subjects are studied and taught should have copies readily available for users. A K Thompson was formerly Professor and head of Postharvest Technology, Silsoe College, UK.
