**Screens Fade to Black** David J. Leonard, 2006-06-30 The triple crown of Oscars awarded to Denzel Washington Halle Berry and Sidney Poitier on a single evening in 2002 seemed to mark a turning point for African Americans in cinema Certainly it was hyped as such by the media eager to overlook the nuances of this sudden embrace In this new study author David Leonard uses this event as a jumping off point from which to discuss the current state of African American cinema and the various genres that currently compose it Looking at such recent films as *Love and Basketball* *Antwone Fisher* *Training Day* and the two *Barbershop* films all of which were directed by black artists and most of which starred and were written by blacks as well Leonard examines the issues of representation and opportunity in contemporary cinema In many cases these films which walk a line between confronting racial stereotypes and trafficking in them made a great deal of money while hardly playing to white audiences at all By examining the ways in which they address the American Dream racial progress racial difference blackness whiteness class capitalism and a host of other issues Leonard shows that while certainly there are differences between the grotesque images of years past and those that define today's era the consistency of images across genre and time reflects the lasting power of racism as well as the black community's response to it

Morality in Cormac McCarthy's Fiction Russell M. Hillier, 2017-02-28 This book argues that McCarthy's works convey a profound moral vision and use intertextuality, moral philosophy, and questions of genre to advance that vision. It focuses upon the ways in which McCarthy's fiction is in ceaseless conversation with literary and philosophical tradition, examining McCarthy's investment in influential thinkers from Marcus Aurelius to Hannah Arendt, and poets, playwrights, and novelists from Dante and Shakespeare to Fyodor Dostoevsky and Antonio Machado. The book shows how McCarthy's fiction grapples with abiding moral and metaphysical issues: the nature and problem of evil, the idea of God or the transcendent, the credibility of heroism in the modern age, the question of moral choice and action, the possibility of faith, hope, love, and goodness, the meaning and limits of civilization, and the definition of what it is to be human. This study will appeal alike to readers, teachers, and scholars of Cormac McCarthy.

Final sections include coverage of NFL Brain Injuries and the Flint Water Crisis. Examples of the use of engineering standards are shown and discussed throughout the work. Addresses a wide variety of forensic engineering areas, including relevant law. Provides a new approach of study that includes the work of both engineers and litigators. Contains contributions from over 40 experts offering the reader examples of general forensic methods that are based on reliable engineering practice.

Knocking the Hustle Lester Spence, 2015-12-10 Over the past several years, scholars, activists, and analysts have begun to examine the growing divide between the wealthy and the rest of us, suggesting that the divide can be traced to the neoliberal turn. I'm not a business man, I'm a business man. Perhaps no better statement gets at the heart of this turn. Increasingly, we're being forced to think of ourselves in entrepreneurial terms, forced to take more and more responsibility for developing our human capital. Furthermore, a range of institutions, from churches to schools to entire cities, have been remade, restructured, in order to perform like businesses. Finally, even political concepts like freedom and democracy have been significantly altered. As a result, we face higher levels of inequality than any other time over the last century. In *Knocking the Hustle: Against the Neoliberal Turn in Black Politics*, Lester K. Spence writes the first book-length effort to chart the effects of this transformation on African American communities in an attempt to revitalize the black political imagination. Rather than asking black men and women to hustle harder, Spence criticizes the act of hustling itself as a tactic used to demobilize and disempower the communities most in need of empowerment.
